PROFILE

Do you need highly skilled website layout? For ongoing large projects or simple tasks?
Congratulations, you found me!

I have 2 years of experience and will do my best to make you happy with my work. I pay great attention to detail.

My advantages:
- Reliability - when changing content, the site will not break.
- Adaptability - I will make a convenient adjustment for different devices.
- Guarantee - if you need my help over time, I will be
I will always be ready to help.
- Details - Socrates said: "A good beginning is not a trifle, though it begins with a trifle."

My skills for high quality layout:
- Html
- Css (Scss, Sass)
- JavaScript
- Gulp
- Figma

You can find examples of my work in my portfolio on UpWork, on GitHub or on my website - https://bogdannakai.github.io/Resume/

I look forward to helping you realise your great projects.
Sincerely, Bogdan Nakai.

EDUCATION

Complete secondary education   Sep 2011 - May 2022
Completed secondary education.
I finished school in a small town where I still live. At school I liked geometry, history and physical education. When I finished school I prepared for exams and at the same time I learnt how to design websites. I was good at passing the exams, and now I'm just as good at delivering the finished layout :)

SKILLS

Html

Css (Scss, Sass)

Java Script

Gulp
Figma

LANGUAGES

Ukrainian

English

COURSES

Genius - Space   Mar 2024
I took a basic front-end developer course. I remembered the technologies I had studied before.
Here is my certificate: "Frontend Developer".
